To all IDC European Zone Members

Dear Brothers and Sisters;

As IDC European Zone Coordinator I would like to thank you all for your effort in mobilizing your unions and encouraging European workers to join the action on July 7. On the overall, the Global Day of Action has been a success and we have been able to join forces and mobilise workers from one end of the world to the other, this is a historical landmark in the labour movement, and it is the success of all of us!

We are all aware that there have been some specific problems in some countries but I believe from the IDC perspective we have done a great job, and we have certainly sent a message to employers and governments alike: that port workers stand united and are ready to fight back when they are under attack.

In Europe we are currently facing many attacks on different fronts, and we need to continue to work on international solidarity to make our network stronger. The IDCE has always been an important engine for the IDC and we must continue to be so.

Thank you all again Brothers and Sisters!

We will certainly not walk alone again!

In solidarity,

Anthony Tétard
IDCE Zone Coordinator
